Agenda Item 1: Follow-up Items

- 1. Field Trip Form Feedback:** Sandy said they lacked feedback from ALC groups, and wished to wait and report the results at the next meeting.
- 2. Field Trip Discussion:** Vicki discussed the field trip form the Fine arts suggested last meeting. They wished to see a Master Schedule in the office for day time field trips, keeping separate from athletics and after school activities. Steve Burnett expressed that the NJROTC does not have more than one week notice on some of their field trips because they have to work with the flight plans of the service. They try very hard to let teachers know as soon as possible.
- 3. Staff Survey:** Emm Foster gave a presentation of the survey of the faculty attitude of the MAP test. It was decided that the results should be copied and given to each facilitator to share with their group. [Copies are also available in the workroom and online.] Susan Marcum will put together a short survey results from the groups of students she has talked with.

Agenda Item 2: New Items

Agenda Item 3: Facilitator Input

- Susan Parrish reported on the feedback of semester test schedule. She wishes to wait for the rest of the groups to send feedback before she presents a final copy. Tyler Jackson discussed what the students' group, SGA, would like:
 1. Less prep time - feels students are not using this time wisely.
 2. Would like to see the schedule condensed more.
 3. Was hard to have 3 tests the last day of school.

Shannon Cuff and Joyce Crumpley suggested that maybe we could have 7th hour test on the first day, and even period tests (2-4-6) the second day and odd period tests (1-3-5) the third day. It would make the time much easier to equal out three ways. Each teacher could determine their own study time, and we would not have to rely on assembly or extra free time to use up the full three days.
