

Cooperative learning component:

In groups of four or five, decide who will bring a teapot and Chinese tea from home. Your job will be to determine who will present a brief oral presentation to the class about the tea ceremony information you got off the Trackstar web sites. As a group, write this presentation, edit it, and rehearse it.

The day of the tea ceremony, decide who in your group will be serving tea to the rest of the class. The class will be using the teacups they made in art class to drink from, but the tea and teapot will have to be furnished. The remaining group members will be in charge of heating the water, and preparing the tea.
